

## Tallow Soap

### Creamy Lather • Gentle Clean • Deeply Nourishing

Pure, Natural & Simple Ingredients for Healthy, Radiant Skin

We've handpicked every ingredient in our tallow soap to deliver a creamy, skin-loving cleanse that leaves your skin feeling refreshed, balanced, and deeply moisturized—without stripping its natural oils.

#### Time-Honored Ingredients for Clean, Nourished Skin

- **Tallow (Beef Fat)** – Traditionally used for centuries, beef tallow is rich in skin-compatible fats and Vitamins A, D, E & K. It provides a gentle cleanse while deeply nourishing and supporting your skin's natural barrier.
- **Castor Oil** – Naturally cleansing and rich in ricinoleic acid, castor oil promotes a creamy, stable lather that helps remove impurities while leaving skin soft and conditioned.
- **Virgin Coconut Oil** – Known for its cleansing power and skin-conditioning fatty acids, coconut oil creates a bubbly lather and supports a healthy skin barrier.
- **Food-Grade Sodium Hydroxide (Lye)** – Essential for the soap-making process (saponification), it transforms oils into gentle, skin-safe soap. None remains in the final product.
- **pH-Balanced Well Water** – Pure and mineral-rich, our well water is naturally balanced to ensure a gentle formula suitable for daily use.

#### We Think You'll Love:

- ✓ Creamy, Gentle Lather – Cleans without stripping natural oils.
- ✓ Nourishing Ingredients – Rich in natural vitamins and fatty acids.
- ✓ Long-Lasting – Hand-poured and cured for a hard, slow-melting bar.
- ✓ Pure, Natural & Simple – No synthetic dyes or preservatives.
- ✓ Handcrafted Tradition – Made the old-fashioned way in small batches.

#### Because your skin deserves the best!

*Our soaps are available with natural essential oils or IFRA certified fragrance scents.*
